

# COVID UPDATE 9/23/2020

## Still Green!

I am very happy to report that all the employees' COVID tests are negative. We are following the Department of Health (DOH) guidelines for our testing protocol and will be testing staff monthly unless the Chester County positivity rate elevates, then we will test more frequently.

The Friends Home and Linden Hall is also following the DOH visitation guidelines. I am in conversation with them on developing an in-person visitation protocol indoors that will allow some safe physical contact. At this time, these types of visits are restricted by the state, but I will continue to present our plan for consideration.

As always thank you all for your support in keeping the staff and residents of Friends Home safe. Please call me with any questions around these policies.
