

COVID UPDATE 12/14/20

WHOLE COMMUNITY IS RED EFFECTIVE 12/12/20 AT NOON

As of this morning we do have 3 staff members from the facilities department who have tested positive and one resident who was sent to the hospital yesterday whose test came back positive this morning. We are testing everyone, staff and residents on both sides, today and tomorrow. I will keep everyone updated as information comes in. Please refer to our website daily for any updates in case the blast can not be sent

I am waiting anxiously for information from CVS about our vaccine clinic. Once I receive this information, I will send out a detailed notice concerning which vaccine we will be getting and when. Please contact me if you have any questions or concerns.
