

FRIENDS HOME IN KENNETT

COVID UPDATE 1/15/2021

In Friends Home all previously negative staff and residents were tested 1/13/21. All of these tests were negative. The Friends Home does have 2 residents still with active cases; therefore, we are not going to open the dining room or activities. The Friends Home Personal Care side will be **YELLOW** until further testing occurs. This means residents can walk in the hallways escorted by a staff member, wearing their masks and maintaining 6 feet social distancing from all other residents. We are being extra cautious with our negative staff and residents to prevent further transmission.

Unfortunately, Linden Hall has two additional residents testing positive on 1/14/21. We are able to give all positive residents a private room to help negate further transmission. We will be retesting all LH residents again Monday 1/18. All Linden Hall staff had negative tests. We do have 2 nurses home recovering from COVID therefore we will continue to have agency nursing staff present. Linden Hall will continue **RED** status until we have two weeks without any new cases.

As always please reach out to me with any questions or concerns.
