

**FRIENDS HOME IN KENNETT
COVID UPDATE 1/18/2022**

Linden Hall is RED

Unfortunately, last night a resident at Linden Hall and another health care worker tested positive for COVID. All other staff and residents were tested immediately and were negative. Linden Hall is now at **RED STATUS** until further notice.

This means visitation is limited to end-of-life situations only.

All residents will eat in their rooms and all activities and therapy will occur individually while maintaining social distancing from all others.

Staff and residents will be tested every other day, unless symptomatic.

Once it is deemed safe restrictions will be lifted.

Updates will be provided as the situation changes.

As always please reach out with any questions or concerns.

Thank you!

Christine McDonald
Executive Director
