

**FRIENDS HOME IN KENNETT  
COVID UPDATE 1/24/2022 (11:30 a.m.)**

**The Friends Home Building is RED**

A Friends Home employee tested positive today for COVID after working for several hours this morning. We are going **RED** at this time which means all group dining and group activities are on hold and no visitors will be allowed. We will be testing all residents this afternoon and I will send update once that is complete. If all residents are negative, we will maintain a **YELLOW** status for the next 5-7 days then retest. Yellow means residents can leave the building but must wear a mask at all times in the hallways. Under **YELLOW** status, dining, group activities and visitors are still on hold. Our goal at this time is to minimize contact with other residents and employees until we are in the clear.

As always please reach out with any questions or concerns.

**Thank you!**

Christine McDonald  
Executive Director
