

FRIENDS HOME IN KENNETT

COVID UPDATE 7/10/2022

The residents in Friends Home were retested on Saturday 7.9. At this time one new resident did test positive. We also experienced a fire emergency on Wednesday 7.6 where all residents were required to be evacuated. Luckily there was not an actual fire, but this incident did extend the Friends Home overall **YELLOW** status until retesting on 7.12.22 due to possible exposures. The residents who have tested positive must continue to be in isolation, **RED** status, until their day 10 which is Tuesday 7.12.

All residents and HC staff will be tested Tuesday at which time a new COVID status will be obtained.

Those residents not on isolation can walk outside their room but **MUST** wear a mask at all times and stay away from any other resident. This is for everyone's protection and to facilitate returning to **GREEN** status as soon as possible.

Residents not on isolation can leave Friends Home but remember, the reason for **YELLOW** status is everyone has possibly been exposed to a COVID positive person. Residents not isolated can receive visitors but everyone must wear a mask and there is a risk to exposure with this action.

Linden Hall is on **RED** with one resident testing positive. All other residents can be out of their rooms with 1:1 activity with other staff. Linden Hall residents must not be in contact with each other until further test results are obtained. Linden Hall residents can enjoy the patio with staff and maintaining 6 feet distance from each other. Linden Hall is closed to outside visitors at this time.

Please call with any questions or concerns. I am very grateful that all those who have tested positive last week are doing well and in recovery mode.

Thank you!

Christine McDonald
