

# LINDEN HALL AT FRIENDS HOME IN KENNETT

## COVID UPDATE 7/8/2022

### LINDEN HALL IS RED

Late this morning (Friday) it was identified that a resident in Linden Hall tested positive for COVID. This resident did not have any contact with other residents but was cared for by staff. We were able to test some of the staff today and everyone was negative. We are going to have to keep Linden Hall in RED until all staff are cleared. Hopefully this can be accomplished quickly, and an update will follow soon after with the plan of action.

To clarify the color status.

RED is a known positive diagnosis. Residents will eat in their rooms, must stay in their rooms unless escorted individually in the hallway to limit social interaction, and will be retested day 7-10. Once negative test obtained the RED status will be lifted.

Medications and treatments will be given in rooms. There are no visitors during this time for these residents.

Please call with any questions or concerns.

#### **Thank you!**
